FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.404 sets out the acute care hospital fee guideline for inpatient services.
3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 252 – An attachment /other documentation is required to adjudicate this claim/service
 - P12 – Workers Compensation jurisdictional fee schedule adjustment
 - W3 – In accordance with TDI-SEC Rule 134.804, this bill has been identified as a request for reconsideration or appeal

Issues

1. What is the applicable rule for determining reimbursement of the disputed services?
2. What is the recommended payment for the services in dispute?
3. Is the requestor entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement in the amount of \$4,612.80 for inpatient hospital services rendered from March 21 – 23, 2016. The carrier reduced the billed charges with adjustment code P12 – “Workers compensation jurisdictional fee schedule adjustment.”

Inpatient acute care hospital reimbursement is subject to the provisions of Code 28 Texas Administrative Code §134.404(f), which states

The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors as published annually in the Federal Register.

Per §134.404(f)(1),

The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 143 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables.

Review of the submitted documentation finds that separate reimbursement for implantables was not requested; for that reason, the MAR is calculated according to §134.404(f)(1)(A) and is found below.

2. Per §134.404(f)(1)(A), the sum of the Medicare facility specific amount, including any outlier payment, is multiplied by 143%.

Information regarding the calculation of Medicare IPPS payment rates may be found at <http://www.cms.gov>.

Review of the submitted medical claim finds that the DRG code assigned to the services in dispute is 470. The services were provided at Methodist Willowbrook Hospital. Based on the submitted DRG code, the service location, and bill-specific information, the Medicare facility specific amount is \$13,095.20.

Step 1: Calculate the Medicare facility specific reimbursement amount plus any applicable outlier payment

The division establishes the total Medicare facility specific amount in this case using the *Medicare Inpatient PPS PC Pricer* as a tool. The *Medicare Inpatient PPS Pricer* efficiently identifies facility specific payment factors and adjustment. The pricer is found at www.cms.gov.

The following illustrates the division's calculation of the total Medicare facility specific amount:

TOT DRG AMT:	Add back VBP CR <i>(not applicable due to conflict with Texas Labor Code)</i>	Add Cost Outlier <i>(applicable)</i>	Total Medicare Facility Specific Amount
\$13,095.20	- 22.97	+ \$0.00	\$13,072.23

Note that a claim addition identified as "VBP CR" on the *Medicare Inpatient PPS Pricer* was deducted from the total DRG amount for this admission. "VBP CR" stands for Value-Based Purchasing (VBP) claim reduction (CR) which in Medicare is used to fund the Medicare VPB program. Medicare's VBP program was implemented to monitor and improve quality of care provided at inpatient hospitals participating in the Medicare system. Consequently, the Medicare VBP program conflicts with existing Texas Labor Code (TLC) sections [413.0511](#) and [413.0512](#) which provide for the review and monitoring of the quality of health care provided in the Texas workers' compensation system. The fee rule for inpatient hospital services contains a conflict provision which explains that the Texas Labor Code in such instances takes precedence:

28 TAC §134.404 (d)(1) Specific provisions contained in the Texas Labor Code or the Texas Department of Insurance, Division of Workers' Compensation (Division) rules, including this chapter, shall take precedence over any conflicting provision adopted or utilized by the CMS in administering the Medicare program.

For this reason, the VBP CR amount does not apply. The VBP claim reduction amount was therefore deducted because it does not apply to inpatient hospital services provided in the Texas Workers' Compensation system.

Step 2: Multiply the total Medicare facility specific amount by 143%

The reimbursement calculation is therefore:

Total Medicare Facility Specific Amount	28 TAC §134.404 (f)	Total DWC Reimbursement
\$13,072.23	\$13,072.23 x 143%	\$18,693.29

The total allowable reimbursement for the services in dispute is \$18,693.29.

3. The total recommended payment for the services in dispute is \$18,693.29. The insurance carrier has paid \$14,142.52. An additional payment of \$4,550.77 is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$4,550.77.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Sec. 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services in dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$4,550.77, plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this Order.
